Porcentaje cobertura jacoco

Pruebas en Postman sobre servidor.

The figure shows a screenshot of the Postman application interface. On the left, there are collections, environments, and other workspace-related icons. The main area displays a "Mutant DNA - Run results" section. It shows a single run completed today at 02:06:24 PM with 5 tests passed. Below this, several POST requests to the "/mutant" endpoint are listed, each with its status (e.g., 200 OK or 403 Forbidden), duration, and response size. The requests test various conditions like returning 200 OK for ADN mutants, 403 Forbidden for ADN humans, 400 Bad Request for empty bodies, and 400 Bad Request for empty bodies.
